Hologlyph Bots

## Original Configuration

---

The Flower (Function Mode)

$r = 220\cos(4\theta)$

$\theta_1 = 0$ to $2\pi/3$

$\theta_2 = 2\pi/3$ to $4\pi/3$

$\theta_3 = 4\pi/3$ to 2π

Note: r and θ are in polar coordinates, convert this to x(t) and y(t)

The grid is given for reference to compare the actual drawing with the expected drawing.
This will be used in Manual Drawing Evaluation.
